

## **Hurt Somebody**

You go out at night, you know you don't fight fair,  
You make all us guys think you really care,  
Your gonna hurt somebody  
Your gonna hurt somebody  
Your gonna hurt somebody  
The way you done hurted me

You look at us boys with your shotgun eyes,  
The way your tight skirts really hug your thighs,  
Your gonna hurt somebody  
Your gonna hurt somebody  
Your gonna hurt somebody  
The way you done hurted me

Clothing that you wear works like a fishing lure  
The fever that you give there ain't no cure  
Your gonna hurt somebody  
Your gonna hurt somebody  
Your gonna hurt somebody  
They way you done hurted me

You got the sweetest voice that I've ever heard,  
Its hard to stay away from your dangerous curves,  
Your gonna hurt somebody  
Your gonna hurt somebody  
Your gonna hurt somebody  
They way you done hurted me

Hurt Somebody  
Hurts somebody  
You're gonna hurt somebody  
Hurt somebody  
Gonna hurt somebody  
The way you done hurted me

## **She's Mine**

See that girl walking down the street  
She catches the eye of everyone she meets  
See the way that she walks so fine  
The main thing about her is that girl is mine  
She's mine, I tell you she's mine  
You can look at her but don't you dare touch her, now She's mine

When she comes in to view, well its plain to see  
Everybody stares at her including me  
Like a tall glass of wine, a vintage so fine  
The main thing about her is that girl is mine  
She's mine, I tell you she's mine  
You can look at her but don't you dare touch her, now she's mine

Well, see that girl walking down the street  
Yea, she's the kind of girl you'd like to stop and meet  
But here's one little thing to remember  
She's mine

Well, see that girl walking down the street  
Yea, she's the kind of girl you'd like to stop and meet  
But here's one little thing to remember  
She's mine yeah, yeah, yeah

You'd better watch yourself, I know what's on your mind  
You mess with her well its trouble you'll find  
Keep your hands in your pockets  
You'll be fine, just you remember, that that girl is mine  
She's mine, I tell you she's mine  
You can look at her but don't you dare touch her, now she's mine  
You can look at her but don't you dare touch her, now she's mine  
Yea, you can look at her but don't you dare touch her, now she's mine

### **Meat and Potatoes Woman**

She's my meat and potatoes woman  
I'm her gravy on the side  
She's my meat and potatoes woman  
I'm her gravy on the side  
She's got all that flame-broiled flavour  
That keeps me satisfied

She's Grade A beef; She's tenderloin stew  
When it comes to lovin me; she knows just what to do  
She's my only baby  
She's my number 1  
Well now she's so rare,  
because she's so well done

She's no cold cut; She ain't no tofu  
I know she loves me and she don't love you  
She's my meat and potatoes woman  
I'm her gravy on the side

She's got all that flame-broiled flavour  
That keeps me satisfied

She's my rack of lamb, My salty pork chop  
When it comes to loving me she just don't stop  
She's my meat and potatoes woman  
I'm her gravy on the side  
She's got all that flame broiled flavour  
That keeps me satisfied  
She's got all that flame broiled flavour  
That oh keeps me satisfied  
She's got all that flame broiled flavour  
That oh keeps me satisfied

### **Waiting at the Station**

I've been waiting at the station, I hope the train's on time  
I,ve been waiting at the station, hope the train's on time  
And I got a one-way ticket to see that girl of mine

You know that when I get there, gonna hold my baby tight  
She's never had a lover likes she's gonna have tonight  
I've been waiting at the station, hope the train's on time  
And I got a one way ticket to see that girl of mine

You know that when I get there, gonna hold my baby tight  
She's never had a lover like she's gonna have tonight  
I've been waiting at the station, hope the train's on time  
And I got a one way ticket to see that girl of mine

I've been waiting at the station, hope the train's on time  
I,ve been waiting at the station, hope the train's on time  
And I got a one way ticket to see that girl of mine

I've been waiting at the station hope the train's on time  
I've been waiting at the station hope the train's on time  
And I got a one way ticket To see that girl of mine  
And I got a one way ticket To see that girl of mine  
And I got a one way ticket To see that girl of mine

### **Grey Skies**

It's 5 o'clock in the morning, the sun ain't even up

It's 5 o'clock in the morning, I'm afraid to wake up  
I live in misery  
Cause the way that you treated me  
Because of all your lies  
Don't you know that I see nothing but grey skies - All the time

Oh late in the evening, you come stumbling through my door  
Wonder where you've been, I can't take this anymore  
You cause my misery  
Cause the way that you treated me  
Because of all your lies  
Don't you know that I see nothing but grey skies

Oh, I can't stand , your deception and your lies  
I love you on the one hand, but your hands are all over other guys  
I gotta end my misery  
And separate you from me  
Because of all your lies  
I don't want to see anymore grey skies

### **When Your Phone Ain't Ringing**

Well I went with you , but it was at a cost  
Now I've come to my senses and want you to get lost  
When your phone ain't ringing  
Its me not calling you

I brought you flowers, most every day  
I gazed deep in your eys, and you just looked away  
When your phone ain't ringing  
That's me not calling you

When your phone ain't ringing  
That's me not calling you  
When your phone ain't ringing  
That's me not calling you  
Well I want you to know, baby we are through

When your phone ain't ringing  
That's me not calling you  
When your phone ain't ringing  
That's me not calling you  
Well I want you to know, baby we are through

You say I'm out of style with the clothes that I wear  
You make fun of my bald spot, in back of my hair

When your phone ain't ringing  
That's me not calling you

I'm gonna find me another gal that's just what I'll do  
Well I might just find me another one or two  
But When your phone ain't ringing  
That's just too bad for you

### **Stay Away From Lindsay**

Stay away from Lindsey  
You don't know where she has been  
Stay away from Lindsey  
You don't know where she has been  
Well I'm telling you boy  
She's lived a life of sin

Stay away from Dana  
Run as fast as you can  
Stay away from Dana  
Run as fast as you can  
Well you mess with her  
You're gonna meet a jealous man

Well stay away from all the girls  
It don't matter if they're young or old  
My daddy always told me son  
You know all that glitters  
Just ain't gold.

Well stay away from all the girls  
It don't matter if they're young or old  
My daddy always told me son  
You know all that glitters  
Just ain't gold.

Stay away from Carrie-Anne  
She's not what she appears to be  
Stay away from Carrie-Anne  
She's not what she appears to be  
Well she used to be man  
Before her surgery

## **Let Your Love go By**

Got your picture in my pocket  
That and a broken cigarette  
You left me so long ago  
My heart's not mended yet  
And I feel like I wanna die  
Since I let your love go by  
Let your love go by  
Let your love go by

I've got no money to my name  
You said you'd want me just the same,  
Must have been something that I didn't do  
Cause I'm all alone now without you  
And I feel like I wanna die  
Since I let your love go by  
Let your love go by  
Let your love go by

Well I miss you in the morning  
I get lonesome late at night  
Everywhere I go I see your face  
Since you left  
It's just not right

Got a ticket on a Greyhound bus  
I can't stay here when there's no us  
I've got to leave now I've got to start a new  
It's the hardest thing I'll ever do,  
And I feel like I wanna die  
Since I let your love go by  
Let your love go by  
Let your love go by ...

## **Try and I Try**

Oh baby , baby  
I've seen better days  
When I dust myself off  
I Fall flat on my face again  
I Try and I try  
To treat my baby right  
So please baby, please  
Come home with me tonight

Don't got lots of money  
No fortune or fame

But one night with you  
Would surely ease my pain  
I Try and I try  
(try and I try)  
To treat my baby right  
(Treat her right)  
So please baby, please  
Come home with me tonight

I asked my family doctor  
What is this pain I feel  
I have this hurt in my chest  
And you know it just won't heal  
I Try and I try  
(try and I try)  
To treat my baby right  
(Treat her right)  
So please baby, please  
Come home with me tonight

### **Last Call Boogie Lyrics**

Well we're drinking up and tearing up a Friday night  
The girls are all pretty and the band's real tight  
I'm doing good, you know I'm feeling all right  
I could keep it going till the broad daylight  
The bartender said the words that ended it all  
It was the last call for alcohol

I'm on the floor just doing my thing  
But I'm not finished with my drinking  
Gonna get to that bar and order a couple more  
Have one or two, get back on the floor  
I'm just here to have fun you see  
Now I'm dancing baby to the last cal boogie

Do the last call boogie,  
Do the last call boogie  
Do the last call boogie,  
Do the last call boogie  
They're trying to end my fun, But baby I ain't done  
We'll do the last call boogie baby, all night long

Well the lights are turned on and it closing time  
Baby come with me we'll share a bottle of wine

My place stays open till the break of dawn  
So even if its late we can still have fun  
You don't have to worry that its time to go  
We'll do the last call boogie and we'll do it real slow

Do the last call boogie,  
Do the last call boogie  
Do the last call boogie,  
Do the last call boogie  
They're trying to end my fun, But baby I ain't done  
We'll do the last call boogie baby, All night long

Do the last call boogie,  
Do the last call boogie  
Do the last call boogie,  
Do the last call boogie  
They're trying to end my fun, But baby I ain't done  
We'll do the last call boogie baby, All night long
